Why dedicated Memory Care

Adults who have Alzheimer's and dementia have unique physical and emotional needs that benefit greatly from specialized Memory Care.

Barton House is designed to ensure residents' safety without restricting their freedom to move and explore. Our programming and facility design are based on Memory Care best practices that lessen confusion and isolation, promote activity and engagement, and create the structure and comfort of routine.

And because Memory Care is *all we do*, our staff is equipped to manage the full spectrum of dementia symptoms: the ups and downs – the good moments and the trying ones – with genuine compassion and understanding.

Thank you all for taking such good care of our Dad. The kindness and compassion you've shown him and our family means so much to us. There are not enough words to express how grateful we are for Barton House. -Suzanne D.

“To say ‘thank you’ seems so inadequate for the love and support you have shown to Mom and our family. Barton House has truly been a blessing to our lives. -Debbie”

Respite Day Care

Caring for a loved one who suffers from dementia is challenging and stressful. Our respite programs give caregivers time to restore balance in their lives. For others it can be an effective way to transition into full time care. Whatever your needs, we're here to help.

- Secured adult day services are available between 9 a.m. and 5 p.m.
- Overnight respite care is also available
- On-site nurse and care partners to assist with the activities of daily living
